BEACH CLEANUP DRIVE

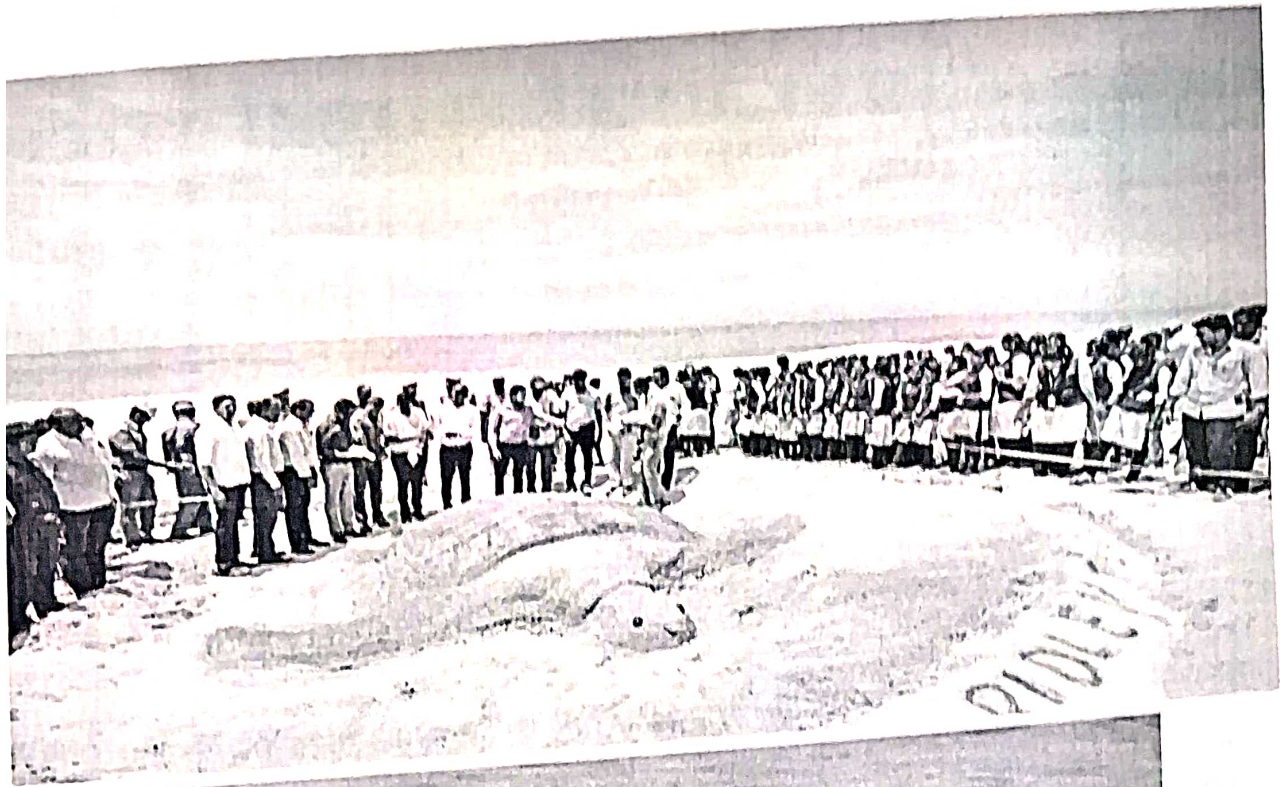

A beach cleanup drive was successfully conducted at Dhuwarakapathy Beach on the 5th of April 2023. The event was organized by the Cape Green Mission in collaboration with Mr. P.N. Sridhar I.A.S., District Collector, and Mr. M. Ilayaraja I.F.S., District Forest Officer. Protect and Release more than 500 rare species of baby turtles to reach their destination in Australia. Around 150 students and 10 staffs were participated in the event

Event Highlights:

- **Leadership:** Mr. P.N. Sridhar I.A.S., District Collector, and Mr. M. Ilayaraja I.F.S., District Forest Officer, provided strong and exemplary leadership throughout the event, underscoring their commitment to environmental conservation.
- **Organizer:** The Cape Green Mission played a pivotal role in organizing and executing the event, emphasizing the significance of community-driven environmental initiatives.
- **Location:** The cleanup drive was carried out at Dhuwarakapathy Beach, a site known to be vulnerable to pollution and littering.
- **Volunteer Engagement:** A substantial number of volunteers from diverse backgrounds participated with enthusiasm, demonstrating the community's dedication to environmental preservation.
- **Cleanup Activities:** Volunteers actively engaged in the cleaning process, diligently collecting litter, plastic waste, and other debris. Their efforts significantly contributed to the restoration of the beach's natural beauty.
- **Awareness Campaigns:** The event included impactful awareness campaigns and educational sessions that highlighted the detrimental effects of pollution on marine life and fragile ecosystems.
- **Positive Outcomes:** The beach cleanup drive resulted in a visibly cleaner and safer beach environment. Additionally, it fostered an increased level of environmental consciousness among participants and the wider community.

'Save Water, Save Earth'

The IEEE ADSF SIGHT students recently organized a significant event aimed at promoting environmental awareness, specifically focusing on the importance of water conservation and environmental sustainability on 23 MARCH 2023 at GHSS THALAKUDY. As part of this initiative, students collaborated to create awareness through art by drawing impactful illustrations on the compound wall of a government school. Our students showcased their artistic talents by creating visually appealing and thought-provoking illustrations depicting the significance of water conservation and its impact on the environment. These pictures served as powerful visual aids to convey the message of 'Save Water, Save Earth' to the broader community. In addition to the artwork, interactive sessions were conducted to educate students and community members about practical water-saving techniques, such as rainwater harvesting, water recycling, and responsible water usage habits. Distribution of Educational Materials: Pamphlets, brochures, and posters containing valuable information about water conservation strategies and environmental sustainability were distributed among the attendees to reinforce the message and provide practical tips for implementation. Around 40 students and 1 staff were participated in the event

தாழக்குடி அரசு பள்ளி வாசலில்

5 மணி நேரத்தில் விழிப்புணர்வு ஒவியம் வரைந்த இன்ஜினியரிங் கல்லூரி மாணவ, மாணவிகள்
